The Russell G. Weigand Center for Professional Excellence (WCPE) will help you identify, shape and define your career goals, and connect you with people and resources to help make your dreams a reality.

- **Receive Career Guidance.** We'll support you as you explore career possibilities, starting with crafting a strong resume, conducting an effective job search and preparing for an interview. Job shadowing offers the chance to accompany professionals through their workday to understand if a particular career might be a good fit. Mentoring establishes a longer-term relationship with a professional in a particular field.
- **Get Internship Assistance.** We'll help you find internships, which provide hands-on experience and boost your marketability. An internship helps you clarify your career goals, enhance your marketability and creates the chance to make valuable professional contacts. The opportunities are wide—students have worked at multinational firms such as The Walt Disney Co., financial institutions such as BMO Harris Bank, sports franchises such as the Chicago Fire Soccer Club, and nonprofits such as DuPage Habitat for Humanity.
- **Access Pre-Law and Health Professions Advising.** We'll support you in your exploration and preparation for careers in health care and law. You'll receive specialized advising about courses, extra-curricular experiences, and applying to professional school in these fields. Once you enroll at Elmhurst, you should come by early on to begin planning how you will become a competitive applicant.
- **Take advantage of Alumni support:** Graduates have lifelong access to career services, whether you're just starting out, considering a career transition or looking for new challenges in your field. Blistex Inc.

Industry: Consumer Products

Blistex was founded in 1947 as a small, family-run company in the business of developing and marketing lip care products, primarily in the United States. Our objectives in those days were to create quality products, achieve consistent growth and become an innovative leader in lip care. The pursuit of quality and customer service led us in 1967 to create our research and development facilities, as well as build our own manufacturing and corporate headquarters complex in Oak Brook, Illinois. This move enabled us to have pinpoint control of every phase of our business from product formulation and testing to manufacturing and marketing. Over the years, consistent growth was fueled by constant innovation in the Blistex product line. New products were added and existing products improved as Blistex moved into worldwide lip and health care markets. Today, the Blistex tradition is carried on by the third generation of our founding family. And we still believe in our original goals. Product quality. Growth. Innovation. And leadership.
